**DETAILED ACTION**

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 17-22, drawn to a method for forming a foamed polyurethane article.

Group II, claim(s) 23-28, drawn to an apparatus for forming a foamed polyurethane article.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The common technical feature of Independent claims 17 and 23 of Groups I and II respectively is a mold having a top region for expandable polyurethane, a suction opening, a vent, and one or more expansion openings disposed at one or more points of maximum height in the top mold, with each expansion opening being formed by a needle valve disposed in a valve capillaries that close in response to pressure drop occurring when the polyurethane expands. This technical feature is found to not define over the prior art *a posteriori* as evidenced by Sulzbach et al. (PN 6361723, Figs. 1 and 2). Due to a lack of a common **special** technical feature these two groups are subject to restriction.

3. A telephone call was made to Shelia Cockburn on 06/19/2008 to request an oral election to the above restriction requirement, but did not result in an election being made.

4. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the

requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

5. The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to GALEN HAUTH whose telephone number is (571)270-5516. The examiner can normally be reached on Monday to Thursday 7:30am-5:00pm ET.
